Driving license (Category B) | English: Upper-intermediate (B2)

Entrepreneur with a strong background in digital product development and project management.
Founder of Mateleau, a SaaS platform designed for dive clubs, currently tested with real users.
I bring a mix of product thinking, business understanding and execution, and I am looking to contribute to an international project environment.

EDUCATION

Master's Degree in Computer Science, *Ynov Toulouse* — 2022 – 2025

EXPERIENCE

Founder, *Mateleau* — 10/2025 – Present, Toulouse
- Launched a SaaS platform for dive club management and booking
- Defined product positioning, business model and go-to-market approach
- Worked closely with early users to validate needs and improve the product
- Led the development and deployment of the platform

Digital Consultant, *Freelance* — 10/2025 – Present, Toulouse
- Supported clients on digital projects (web platforms, SEO, optimization)
- Gathered requirements and proposed tailored solutions
- Managed projects from concept to delivery
- Improved performance and user experience

Developer & Project Contributor, *ACTN* — 2022 – 2025
- Contributed to internal tools and e-commerce projects
- Participated in system improvements and performance optimization
- Collaborated with cross-functional teams on technical and business topics

SKILLS

Project management • Product thinking • Problem-solving • Adaptability • Client communication • Autonomy
